BRAND STATEMENT

JAMES & NICHOLSON and **myrtle beach** are an indispensable part of the segment of promotional textiles and corporate fashion. The two brands offer one of the widest product ranges for fashionable textile promotional items. Every year about 100 new styles are added to the range.

Except for ready-made clothing, **JAMES & NICHOLSON** and **myrtle beach** offer almost everything.

JAMES & NICHOLSON is functional and fashionable corporate fashion clothing and promotion wear – the brand stands for sustainable, social and environmentally responsible clothing. The brand includes a large selection of T-shirts, polos and sweatshirts in cotton or cotton mix and jackets in up to 40 colourways, as well as functional sportswear for a wide range of sports. The selection is perfectly completed by professional workwear as well as even more functional business wear. Moreover, **JAMES & NICHOLSON** offers a wide range of products in larger sizes for men and women – going up to 5XL. Over 20,000 items are available from stock with a 97% stock availability. This ensures secure and fast response times. The items can be individualized with imprint or embroidery according to customer specifications. The corresponding decoration capacities inhouse ensure a flexible and rapid completion.

The customer is at the centre of daily activities, making customer service a high priority. Therefore, quality is the be-all and end-all of the product lines. All textiles are REACH compliant and are manufactured according to certified OEKO-TEX® Standard 100. Since 1999 social and environmental aspects have been integrated into the company code of conduct.

myrtle beach, echoing the style and flair of the famous beach in South Carolina, combines attractively priced caps and fashionable headgear under one roof. The widest selection and highest competence among trendy headgear! A spa collection, blankets and seasonal offers complete the range. The products of **myrtle beach** are award-winning. In recent years the Promotional Gift Award has been awarded to these brands several times.

In 2018, too, the new product lines are bursting with life: always up to the minute and thus trend-, quality- and trend-conscious

JAMES & NICHOLSON and **myrtle beach** stands for:
Quality – respectfully made on Earth!

RESPONSIBILITY

Social Compliance "BSCI"

As members of the 'BSCI/Business Social Compliance Initiative' we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the employees' right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage. Another central component is the occupational safety regulations. That is how we guarantee that employees do not work more than 48 hours a week and that the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated. A 7-member Social Compliance Department in Shanghai and Dhaka tests all the factories thoroughly and makes sure that these conditions are met.

<http://www.bsci-intl.org/>

OEKO-TEX® Standard 100

This standard guarantees that textile and non-textile product components pose no threat to health.

www.oeko-tex.com

Adherence to the REACH-Regulations

We assure you that when manufacturing our **myrtle beach** caps and **JAMES & NICHOLSON** textiles we meet the obligations of the REACH-regulations.

Protection of the Environment

All the manufacturing plants of our **myrtle beach** caps and **JAMES & NICHOLSON** textiles work on the highest environmental level and pursue the principle of sustainability. For example, all the manufacturing plants dispose of a water purification plant.

Quality Standard

The merchandise is regularly tested by certified testing institutes in Quakenbrück and Bangladesh regarding the confirmed parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.

OCS Standard

When manufacturing garments of **myrtle beach** and **JAMES & NICHOLSON**, the Organic Content Standard 100 (OCS 100) is a standard for verifying and tracking the exact content of organically grown materials in a final product. Among other things, the superordinate 'Content Claim Standard' defines with OCS the traceability of merchandise as well as the transparency within the production chain.

Made with 100%
Organically Grown Cotton
Certified by CU853836

FUNCTIONS & FEATURES

Caps for printing

Caps with this label are ideal for printing and embroidering. The construction of the caps leaves a lot of space so the cap is easy to decorate, with the logo presented to perfection.

Breathability / Permeability to vapour

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

Water column

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

UV-Protection

Textiles with the symbol UV-protection are characterized by sun protection comparable to the protection of a sun-screen. The information is given in UPF (UV-protection factor). This indication implies the factor by which the period of time spent in the sun can be extended without getting sunburnt. It is calculated in the same way as the sun protection factor of a sun-screen.

Taped seams

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % water-proof.

BIONIC-FINISH®ECO

BIONIC-FINISH® was developed, following the example set by nature, 'learning from nature'. The textile is protected against water and dirt by a very thin crystalline structure. BIONIC-FINISH®ECO protects man and nature.

DuPont™ Sorona®

Sorona® renewably sourced fibre delivers superior performance benefits to today's fashion. Fabrics that use Sorona® are very soft, very strong and dry quickly. Sorona® helps fabrics stretch comfortably and retain their shape. And, it is made with plant-based ingredients. DuPont™ Sorona®. Designed for Performance. Derived from Nature.

LYCRA®

Lycra® allows the fabric both to stretch significantly and to retain its shape. Fabrics and garments containing Lycra offer exceptional fit, comfort, freedom of movement and wrinkle recovery.

LYCRA® Sport

Lycra® Sport fabrics are specifically engineered for sporting activities which require a combination of light weight, breathability, muscle support and freedom of movement.

NON IRON

This special finish makes shirts and blouses iron-free: All you have to do is wash them, dry them and put them on. To preserve this function, these textiles should not be over-dried in the tumbler and you should avoid using an overheated iron. If necessary, seams can be ironed at a low temperature.

easy care

This special finish makes shirts and blouses especially easy to iron. To preserve this function the textiles should not be over-dried in the tumbler and you should avoid using an overheated iron.

PrimaLoft® SPORT

PrimaLoft® SPORT is a highly functional padding with excellent insulation qualities, which is extremely soft, light-weight, waterproof and breathable. Specially developed fibres form small air chambers which store body warmth very well, thus keeping the cold out. Thanks to a very thin surface structure the textile is waterproof, however it evacuates moisture from the skin to the fabric surface where it evaporates. Due to this, the skin will remain pleasantly warm.

Thinsulate™ INSULATION

The light-weight thermal insulation affords optimum protection against cold despite its minimum thickness. It even keeps you warm in damp or wet conditions. Thinsulate™ INSULATION offers excellent comfort and allows optimum room to move. It is extremely breathable, durable and easy-care.

coldblack®

Textiles with a coldblack®-finish afford optimum protection against heating up through sun rays. They stay cooler and protect reliably against UV rays (min UPF 30). The effect of this is that the person wearing these garments does not sweat so easily, feels better and is even more efficient. coldblack® is a registered trademark of Schoeller Technologies AG, Switzerland (patent pending).

Softshell

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

CORDURA®

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

COOLMAX® fabric active

COOLMAX® fabric active provides enhanced comfort for active people. High wicking performance helps move moisture to outer layers keeping the skin dry and cool. The fibre is breathable and lasts longer than traditional materials.

COOLMAX®

COOLMAX®-textiles evacuate humidity very fast to the outer layers of the garment thus supporting a natural temperature control of the body.

TOPCOOL®

TOPCOOL® polyester fibres perfectly absorb moisture due to their special surface and evacuate it quickly to the outside where it can evaporate. The skin stays comfortably dry and a constant temperature level of the body is maintained.

CoolDry®

Due to the CoolDry® finish moisture is transported to the outside and creates a comfortable feeling. The textiles dry quickly, are breathable and ideal for all activities.

THERMO SUBLIMATION

Thermo sublimation for great prints!

Sublimation prints are an amazing way to create bright, long lasting colours with photorealistic qualities. Sublimation ink, when heated, turns into a gas that penetrates and permanently dyes polyester fabric, creating a clean, professional look with a soft touch.

Start-up costs are minimal as processing is performed by an ink jet printer using heat transfer paper. The resulting print is in mirror image and is transferred onto the garment by using a heat press at a specified temperature and pressure. This is a low cost operation suitable for one-offs or production series.

THERMO SUBLIMATION

Thermo sublimation for great prints!

Sublimation prints are an amazing way to create bright, long lasting colours with photo realistic qualities. Sublimation ink, when heated, turns into a gas that penetrates and permanently dyes polyester fabric, creating a clean, professional look with a soft touch.

Start-up costs are minimal as processing is performed by an ink jet printer using heat transfer paper. The resulting print is in mirror image and is transferred onto the garment by using a heat press at a specified temperature and pressure. This is a low cost operation suitable for one-offs or production series.

HAI-COLLAR
Fashionable

At the moment this collar, also known as cutaway collar, is the best choice in business and therefore, it is very popular with fashion-conscious men. Thanks to the spread collar shanks it can also be worn with ties made of medium-weight fabric and thicker tie knots, which lends the outfit a casual yet elegant appearance.

white

BUTTON-DOWN-COLLAR
Sportive

A classic in the business and casual sector and at the same time the most casual collar. With its shanks the button-down collar is an allrounder which cuts a very fine figure with fairly sturdy and casual fabrics and without a tie. It makes the wearer seem slimmer, but accentuates his chin. Men wear the button-down shanks. The Button-down shirts are available in the slim-fit version ‚Modern Fit‘ and in the classic version ‚Comfort Fit‘.

white

NEW KENT-COLLAR
Versatile

It is fashionable as well as classic. With its collar shanks spread a bit wider, the New Kent-collar is a mixture of Kent- and Hai-collar. The shirt can be worn with a suit, under a pullover or just on its own. Reinforced with collar stiffeners, this collar fits perfectly.

white

KENT-COLLAR
The classic

The epitome of today's shirt collar, the Kent-collar is the classic in the suit sector. It offers space for almost all tie knots and is not only very versatile regarding the shape of the collar shanks: The Kent collar also cuts a fine figure under a leather jacket.

WORKWEAR
NEW COLLECTION INCLUDED
DESIGNED IN GERMANY

TRIED AND TESTED

For many years, our workwear basics collection has been a reliable partner on building sites and in workshops. With insertable knee pads, partial cordura reinforcements and hard-wearing fabrics, it withstands hard work days as easily as washing at 60°C and tumble-drying. Now, the product line includes 5 new complementary models and extended size-breakdowns for all outfits.
